

DATA SHEET

LOGITECH MEETUP

Create plug-and-play video conferencing with MeetUp, an all-in-one USB conference camera for small rooms and spaces. MeetUp packs big features and unbeatable value in a compact form factor that is simple to set up and easy to install.

MEET EASY

Compatible with virtually any video conferencing software app, MeetUp easily connects to PC, Mac®, and Chrome™ devices with no additional software required.

With an ultra-wide motorized lens, integrated audio, and a two-way table stand/wall mount, MeetUp reduces cross-room cabling and maximizes usable space in huddle rooms and other small spaces. Three advanced beamforming mics and a custom-tuned speaker with full duplex ensure that meetings sound as great as they look.

KEY FEATURES

All-in-one design

Compact all-in-one form factor takes up less space and minimizes cable clutter.

Plug-and-play USB connectivity

Easily connects to PC, Mac® and Chrome™ devices with no additional software required.

Works with most video conferencing applications

Compatible with virtually any video conferencing software app, including the ones you already use.

Certified for Business

Business-grade certifications mean you can launch your next presentation or video meeting with complete confidence.

TAA Compliant

MeetUp is TAA compliant. For applicable part numbers, visit [support](#).

Razor-sharp optics

Advanced Logitech lens technology delivers remarkable video quality with superb resolution, speed, fluidity, color balance, and detail.

Motorized pan/tilt

Expand your field of view even further—up to 170°—to pan to the white board or view other areas of interest.

Ultra HD 4K image sensor

Supports multiple resolutions, including 4K (Ultra HD), 1080p (Full HD), and 720p (HD) to best support the quality offered by your application and monitor.

5x HD zoom

Zero in on close-ups of objects and whiteboard content with outstanding detail and clarity.

120° field of view

Allows everyone in the room to be seen, even those close to the camera or seated at the edges of the room.

Camera presets

Select up to three preset locations for the camera view and return to any of them with the push of a button on the remote control.

RightSense Technologies

RightSound optimizes the human voice and enhances conversational clarity. RightSight automatically moves the camera and adjusts the zoom so no one gets left out of the picture. And RightLight helps everyone look their best on camera, regardless of lighting conditions.

Expansion microphone-ready

Optional expansion microphone increases conversational radius in larger huddle rooms.

Bluetooth® wireless technology

Connect to a Bluetooth® device for great-sounding audio calls.

3-microphones and custom-tuned speaker

Three beamforming microphones with noise and echo cancellation—plus a custom-tuned speaker—are specifically optimized for small conference rooms.

Multiple mounting options

Mount MeetUp wherever it works best—tabletop, wall, or monitor—for the best possible huddle room experience.

Kensington® security slot

MeetUp is provisioned with a Kensington security slot to help secure the equipment with an anti-theft lock.

Simple to manage

Monitor and manage your meeting room devices from one single platform with Logitech Sync. Plus, get business insights into how your rooms are being used.

RF remote control

Easily operate the pan/tilt/zoom functions during meetings to manually change camera angle and subject.

MEETUP ACCESSORIES

EXPANSION MIC

Logitech Expansion Mic for MeetUp provides greater flexibility for room configurations. Built-in beamforming mics are optimized for up to 4 meters (13.1 feet). To extend that range up to 5 meters (16.4 feet), add an Expansion Mic.

MEETUP MIC EXTENSION CABLE

MeetUp Mic Extension Cable adds 10 meters (32.8 ft) of reach to the mic's standard 6 meter (20 ft) cable. With 16 meters (52.5 ft) of total reach to work with, installers can route cables out of sight for a clean installation. A handy cable clip keeps the connection secure.

TV MOUNTS

Logitech TV Mount for MeetUp securely holds the MeetUp conference camera either above or below a flat-panel monitor and attaches to the industry-standard VESA mounting points available on most TVs and monitors.

DATA SHEET **LOGITECH TAP**

Deliver one-touch join, calendar integration, instant content sharing, and a consistent experience across meeting rooms. With a sleek design, silent operation, and motion sensor for always-on readiness, Tap brings ease and convenience to video collaboration.

MEETING ROOM TOUCH CONTROLLER FOR VIDEO CONFERENCING ROOM SOLUTIONS

More than just a meeting room touch controller, Logitech Tap is what helps you achieve a consistent user experience across your entire deployment.

Boasting a spacious 10.1" touchscreen, low-profile enclosure, and multiple mounting accessories, Logitech Tap delivers a sleek appearance and convenient placement options that support a wide range of room sizes and layouts. And, with its HDMI input, content sharing is instant and effortless. Wireless content sharing is also available depending on your chosen video conferencing service.

- 1 One-touch join:** Easily start and join meetings with just one tap.
- 2 10.1" touch display:** Spacious and responsive touch screen resists fingerprints and glare for high legibility and easy operation.
- 3 Sleek, low profile:** Comfortable 14° angle allows for easy viewing, while providing an unobtrusive presence in the room.
- 4 Always-on readiness:** Built-in motion sensor saves power when idle, and powers on when a person approaches.
- 5 Headphone jack:** Extends the host computer's wired audio capabilities to the tabletop, ideal for private conversations and for the hearing-impaired.
- 6 Dual cable exits:** A sturdy metal cover with removable bottom and rear exits keep cables tidy and secure.
- 7 Clean cable management:** Built-in cable retention and strain relief system hides the cable entirely within its enclosure, and secures it to prevent unwanted disconnections.
- 8 USB accessory port:** Connect an accessory such as a USB speakerphone.
- 9 HDMI input for content sharing:** Provides instant wired content sharing when used with Google Meet™, Microsoft Teams Rooms™, and Zoom Rooms™.
- 10 Anti-theft protection:** Keep Tap securely in place by connecting a security cable to one of Tap's two Kensington lock slots, one on the bottom and another at the back.

ENTERPRISE READY

Clean Installation

Flexible cabling lets you locate Tap near participants for convenient operation while installing the host computer in a cabinet, beneath a table, or behind a display.

Multiple Mounting Options

Secure Tap flat to the table, raise the viewing angle, or mount it on the wall to conserve space, minimize cabling, and optimize the user experience.

ROOM SOLUTIONS WITH LOGITECH TAP

Easily deploy video meetings with pre-configured Logitech room solutions for Google Meet™ and Microsoft Teams™, which include everything you need - Tap, a conference camera or video bar, and PC compute - to start building meeting rooms of virtually any shape or size.

Find Your Perfect Match

Tap works seamlessly with Logitech's lineup of PC-based video bars and modular systems for small, medium, and large rooms.

Laptop Link for Meeting Rooms

Add bring-your-own-device versatility with Logitech Swytch, a convenient way to use the room's display and conference camera with any video meeting or webinar application.

Shown with Logitech Rally Bar.

ASUS NUC 14 PRO

Smaller, Faster, Better, AI Ready

ASUS NUC 14 Pro delivers best-in-class performance thanks to the all-new Intel® Core™ Ultra processor family. It is the most comprehensive mini-PC built with Intel vPro® Enterprise for exceptional security, manageability, and stability. With certified Bluetooth® dongle-free connectivity and three AI engines for high throughput, low power, and fast response, ASUS NUC 14 Pro delivers robust computing capabilities. It is equipped with Wi-Fi sensing for intelligent energy efficiency, and its “tried and trusted” 4x4-inch chassis is designed for toolless access, making upgrades easy, safe, and fast.

Key Selling Points

Performance: Delivers best-in-class performance among comparable mini-PC offerings

Manageability: Most comprehensive mini-PC with Intel vPro® Enterprise for exceptional security, manageability, and stability

AI Ready: Harnesses the prowess of Intel® Core™ Ultra processors’ three AI engines – GPU, NPU, and CPU – for high throughput, low power, and fast response

Wi-Fi Sensing: Takes advantage of Wi-Fi sensing to deliver instant availability while reducing power consumption

Wireless Connectivity: Delivers seamless connectivity for [certified Bluetooth® dongle-free experiences](#)

Customizable: Designed for toolless chassis access making upgrades easier, safer, and faster

Audience:

- Small and Medium Business Enterprises
- Retail
- Education
- Collaboration
- Remote Workers

Target Usages:

- Traditional and Smart Classrooms
- Communication File Sharing/ Virtual Meetings
- Daily Tasks/ Entertainment
- Digital Signage / Kiosk / POS
